

PRESS RELEASE

Milan, May 7th 2016. Regarding the leaks that have appeared in the press relating to Metroweb, Renato Ravanelli, F2i CEO, states: *“F2i hasn’t received neither an offer for the acquisition of the absolute majority of Metroweb nor for the entrance in the capital of the company. If in the next days some proposals should arise, F2i management and BoD would evaluate them, considering the best interest for the investors of the Fund and of Metroweb, which is the player that is able to immediately guarantee, thanks to its expertise and managed fiber optic network, the acceleration to the infrastructural development needed by the Country”*.
